Advanced Merchant Group

... *It's a Family Thing!*

November 2011

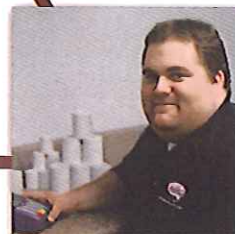

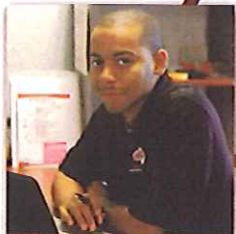

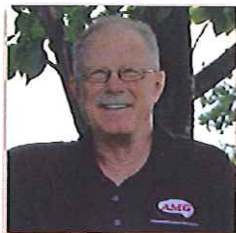

Advanced Merchant Group

Strong Family *begins* with a Strong Foundation

- just like a strong company!

As a leader in the merchant services industry for more than a decade, we have always set ourselves apart from our competition with much more than just significantly lowering credit card processing costs for our clients. Thousands of businesses throughout the country, and hundreds of businesses in Bucks County, including numerous LBCCC members have increased their bottom line by switching to AMG for their credit card processing services. Even with dozens of offices throughout the country, hundreds of sales people and thousands of clients across the globe – we have never forgotten the importance of our customer service. Many businesses talk about fantastic customer service...we prove it. At AMG we ask potential clients to test us – call into our office during regular business hours (877-997-9473) and see what happens...go ahead, give it a try! We will never overlook the value of our family of merchants and agents being able to speak with someone when they need assistance. With AMG, you will never have to go through a lengthy automated system just to get an answer to a simple question – a live person will answer the phone, and a live person will assist with whatever you need. We provide you with the comfort of knowing that a local office is not far away, as well as the confidence in knowing that a reputable nationwide company is with you every step of the way.

Above all, family has always been at the forefront of everything we do at AMG. We are a family owned company, and a strong family begins with a strong foundation – just like a strong company. The foundation of our family, just like many families, is built on trust and honesty...the foundation of AMG is built the same way. AMG's recent recognition by INC magazine as one of America's fastest growing private companies, as well as our A+ rating with the Better Business Bureau proves that a strong foundation with good intentions can still achieve great things. When we bring in a new sales person, we are not just adding a number to our sales force – when we hire a new employee, we are not just having someone fill a chair – and when we sign up new clients, we don't just assign them a number then turn away...we are extending our family, our AMG family. We want to make sure that AMG will not just be a place for our children to work one day, but something they will be honored and proud to be a part of. Everything we have done to build AMG into the company it has become has been with our children in our hearts, and in our minds. Our children are the future of AMG; when that time comes they will realize and understand our motivation to build a reputable and successful company ... and our ultimate goal will have been achieved.
